

Mewa

trusted support
everyday

The MEWA - special purpose stroller is designed for children who are unable to walk or sit in the correct position as a result of injury or another condition.

With adjustable pads, the backrest can be optimized to the child's needs and will provide the right security. Large wheels (gel-filled or pumped), with shock absorbers of rear as well as front wheels, facilitate comfortable travel on uneven ground.

the stroller offers a high seat comfort thanks to tilt in space and recline - so-called CRADLE, which will help you to put the child in the right position, making sure that the pressure is distributed evenly.

Mewa is also fitted with a table that can be used for feeding, exercising or playing. Abduction belts stabilize the pelvis and secure the child from sliding out of the buggy.

why MEWA?

1 SEAT MINIMIZING KIT NEW SOLUTION + wide range of additional accessories

A set of 4 separate, specially designed pads allows to perfectly adjust the stroller to the user needs. Additionally a variety of additional accessories considerably enhances user comfort – create and enjoy your own set!

2 CRADLE function - INCREDIBLY ERGONOMIC

The stroller offers a practical function of tilting the seat together with backrest giving your child safe and the most ergonomic position during any travel.

3 Foldable frame and removable seat

The construction of main elements of the stroller allows to disassemble it into 2 separate units (frame and seat) – give yourself considerably more space!

4 Reversible seat

The construction of the stroller allows to easily rotate the seat opposite to the driving direction.
