

NEW

YETI

trusted support
everyday

We proudly present you our new special needs stroller – YETI; a meticulously designed response to the needs of the older children at weight up to 75 kg. Its solid construction and a wide range of parameters adjustment allow to meet user's moderate needs at the highest possible level.

The variety of practical accessories and fast folding mechanism significantly simplify the everyday use irrespective of the weather conditions and time of the year.

Yeti's strong suspensions with full gel wheels, central brake, lifting bar and a directional lock guarantee perfect performance at any type of surface. Modern and practical design is his additional asset.

why YETI?

1 THE MINIMIZING KIT -
YETI grows with YOU

A set of soft narrowing inserts allows you to adjust the width of the stroller for smaller children. The possibility of attaching them to the upholstery at any height allows you to put the child in the optimal position.

2 FLEXIBLE upholstery
easy to use

Multiple stage tension system of a backrest allows for the most individual and complex adjustment. Core of the system is based on extremely durable velcro straps. It's intuitive disassembly and small dimensions after removal help you keep it clean.

3 practical and solid
RUNNING GEAR

YETI has a set of full durable wheels adjusted to user's maximum weight. It is also equipped with an easy-to-use central brake and direction lock on the front wheels. In addition, the tilt foot helps overcome small obstacles.

4 a WIDE RANGE
of accessories

Like all other MyWam strollers, YETI has wide range of equipment. Depending on your needs, you can prepare your stroller for a specific time of the year and the weather, which significantly affects the comfort of use.
