

mouse

**POLISH MANUFACTURER  
OF SPECIAL NEEDS STROLLERS**

The MOUSE special needs stroller is designed for the smallest children who are unable to walk or sit in a correct position as a result of injuries, diseases or motor dysfunctions. The stroller is suitable for children at a height of 80-110 cm and a weight of 30 kg.

Thanks to the backrest tilt and recline feature as well as adjustable torso and head pads you may easily adjust MOUSE to the required position and ensure the user with optimal protection and stability.

The shock-absorbing suspension on all four, large, gel-filled wheels together with the tilt-foot facilitate travel on uneven terrain. Modern and stylish design is an additional advantage of this stroller.

**INDICATIONS:**

- paralysis and paresis of lower limbs of various origins
- paralysis and paresis of the trunk
- weakening of postural muscles responsible for maintaining the correct body position
- cerebral palsy
- myelomeningocele
- muscular dystrophies

# features. *safety and comfort*

## TILT IN SPACE SEAT *simple mechanism*

8°-23°

4 positions

## RECLINING BACKREST *wide range of adjustments*

16° - 88°

4 positions

## ADJUSTABLE AND ANGLE TILT FOOTREST *simple and quick adjustment*

84° - 173°

6 positions

## SEAT MINIMIZING KIT *reducing insert*

The SEAT MINIMIZING KIT in MOUSE is a comfortable, one-piece insert that allows you to reduce both width and depth of the seat.

## STABILIZATION SYSTEM *adjustable pads*

The head and torso support consists of two pairs of independent pads that are height, width and angle adjustable. Its wide range of adjustments and simplicity gives you a fast and effective adaptation to the user's individual needs.

## LYING POSITION *wide range of backrest recline*

With a fully adjustable seat and footrest you may quickly alter the stroller into a cozy bed perfect for a short rest or a nap.

### REVERSIBLE SEAT

*arrange your travel easily*

The design of the stroller allows you to easily rotate the seat opposite to the driving direction. Thanks to this feature you can keep an eye on your child all the time.

### FOLDING LIGHTWEIGHT FRAME

*ease of storage,  
transportation and dismantling*

The construction of main elements allows you to dismantle Mouse into 3 separate units (frame, seat and wheels).

### DRIVING SUPPORT

*comfort for the bumpiest  
journeys*

The stroller is equipped with a shock-absorbing suspension on all four wheels and an adjustable rear suspension in the rear wheels, swivel front castor wheels with option to lock, central brake and a tilt-foot.
