ZEFIR

**POLISH MANUFACTURER
OF SPECIAL NEEDS STROLLERS**

CE MD MEDICAL DEVICE - CLASS I

The ZEFIR special needs stroller is designed for the children who are unable to walk or sit in a correct position as a result of injuries, diseases or motor dysfunctions. The stroller is suitable for users at a height of 80-140 cm and a weight of 40 kg.

ZEFIR is a lightweight stroller made of aluminium and steel alloys equipped with the "I GROW WITH YOU" system, narrowing inserts, reclining backrest and a wide range of additional accessories. Simple to fold and unfold, conveniently compact and easy to manoeuvre – ZEFIR will be your day-to-day support for many years.

INDICATIONS:

paralysis and paresis of lower limbs of various origins
paralysis and paresis of the trunk
weakening of postural muscles responsible for maintaining the correct body position

features. *safety and comfort*

SEAT POSITION *angle parameter*

20°

1 position

RECLINING BACKREST *angles parameters*

25°, 57°

2 positions

ADJUSTABLE FOOTREST *height regulation*

20, 30, 40 cm

3 positions

I GROW WITH YOU *extensive adjustment options*

"I GROW WITH YOU" system allows to:

- extend the backrest height by 10 cm, giving you maximum height of 60 cm
- extend the seat depth by 6 cm, giving you maximum depth of 30 cm.

Quick and simple adjustment - designed to adapt and evolve!

SEAT ADJUSTMENTS *narrowing inserts*

ZEFIR is equipped with 2 narrowing inserts that allow to reduce the seat width and provide additional safety and stability during travel.

FOLDING LIGHTWEIGHT FRAME

ease of storage and transportation

DRIVING SUPPORT

comfort and maneuverability

Light and compact construction of the Zefir special needs stroller allows you to quickly pack it and take it anywhere you want! Enjoy easy manoeuvre across both the city and scenic all-terrain routes.

The special needs stroller Zefir is equipped with front wheels swivel lock, shock absorption system on the rear wheels and central brake mounted on the rear beam. Next to the brake we have mounted a tilt-foot which helps to lift front of the stroller while driving through curbs and other small obstacles.
