

DESIGNED FOR SAFE TRANSPORT AND EVERYDAY USE.

FOR USERS: 85 - 140 CM, UP TO 45 KG

Grizzly

The Grizzly special needs stroller

Is designed for the children who are unable to walk or sit in a correct position as a result of injuries, diseases or motor dysfunctions.

Grizzly is equipped with **the "I Grow With You" system** that allows you for a smooth extension of the backrest height and seat depth as you child grows. Moreover Grizzly offers you a comprehensive stabilization system consisting of adjustable pads at the level of the head, hips and chest - together with a fully adjustable footrest, tilt in space seat and reclining backrest we bring you a stroller that is tailored to fit your child's needs and will serve for years.

The stroller has successfully passed **a crash test**, ensuring the highest level of safety during travel.

CRASH
tested

THIS IS A MEDICAL DEVICE.

USE IT ACCORDING TO THE INSTRUCTIONS FOR USE OR LABEL.

Folding lightweight frame

The construction of main elements allows you to dismantle Grizzly into 2 separate units - the frame and the seat. All wheels are also removable.

Advanced Support System

A complete support system consisting of **a four independent pairs of pads (head, torso, hips and lateral)** guarantees maximum of adjustment possibilities as well as highest comfort and safety during travel.

Reversible seat

The design of the stroller allows you to easily rotate the seat opposite to the driving direction. Thanks to this feature you can keep an eye on your child all the time.

Crash tested

The Grizzly stroller is **crash-tested in accordance with ISO 7176-19:2022**, confirming its safety during transport in a vehicle. The user may travel in the stroller secured with vehicle straps, according to applicable standards.

"I grow with you" system

The Grizzly stroller offers a wide range of adjustments — the seat depth and backrest height can be easily adapted to the child's growth. Combined with adjustable pads and an adjustable footrest, the stroller grows with the user, ensuring comfort and functionality for many years.

Rear wheels with shock-absorbing suspension

The rear wheels are equipped with a suspension system that effectively reduces vibrations when driving over uneven surfaces. This ensures greater comfort for the child and smoother stroller handling.

Swivel castor lock

The front wheels feature a directional lock, allowing for stable stroller guidance on straight paths and in more demanding terrain.
