

TAILORED SUPPORT FOR OLDER CHILDREN.

FOR USERS: 130 - 175 CM, UP TO 80 KG

NEW

YETI

YETI
JR.

The special needs stroller Yeti and Yeti Jr.

The stroller is designed for larger and older children who are unable to walk or sit in a correct position as a result of injuries, diseases or motor dysfunctions.

Its heavy-duty construction is equipped with the **“I Grow With You” system**, which allows smooth adjustment of the backrest height and seat depth as the child grows. **An adjustable tension system** enables precise upholstery tension adjustment for both the seat and the backrest, providing reliable support for many years of use.

Moreover, Yeti's solid suspension, fast folding mechanism, tilted seat, reclining backrest and a wide range of accessories significantly simplify everyday use, regardless of weather conditions or season.

CE MD MEDICAL DEVICE - CLASS I

**THIS IS A MEDICAL DEVICE.
USE IT ACCORDING TO THE INSTRUCTIONS FOR USE OR LABEL.**

PRODUCT SPECIFICATIONS

Folding lightweight frame

The **one-piece construction** Yeti stroller allows for a quick and easy folding which facilitates daily use, storage and transport.

Driving support

The **adjustable tension system** uses 14 independent velcro straps (7 on the seat and 7 on the backrest), to customize **support and stiffness** to the child's needs by tightening or loosening specific points.

Windstopper

Yeti is equipped with a multi-functional windstopper that not only comes in handy during windy conditions but also protects against unnecessary arm movement and limits visual stimulation.

"I grow with you" system

The Yeti and Yeti Jr. stroller offers a wide range of adjustments — the seat depth and backrest height can be easily adapted to the child's growth. Combined with adjustable pads and an adjustable footrest, the stroller grows with the user, ensuring comfort and functionality for many years.

Rear wheels with shock-absorbing suspension

The rear wheels are equipped with a suspension system that effectively reduces vibrations when driving over uneven surfaces. This ensures greater comfort for the child and smoother stroller handling.

Swivel castor lock

The front wheels feature a directional lock, allowing for stable stroller guidance on straight paths and in more demanding terrain.
